

**RADULESCU  
ANA-MARIA**

**FRONTEND DEVELOPER**

## PROFESSIONAL SUMMARY

**Frontend Developer & aspiring Product Manager** with **5+ years** of experience building scalable web applications and leading cross-functional delivery. Specialized in React, Next.js, and TypeScript, with hands-on experience in product planning, market research, roadmapping, and stakeholder communication. Previously a **founder** — I built and ran a business with 7 employees, developing strong ownership, prioritization, and problem-solving skills. **IBM Certified in AI Product Management.**

## CONTACT

**Phone:** +40735131140

**Date of birth:** 18/12/1996

**Email:** radulescuana111@gmail.com

**Linkedin:**

linkedin.com/in/radulescu-ana

**Portfolio:**

<https://anaradulescu.xyz/>

## EDUCATION

*Bachelor's degree in Visual Arts*

*National University of Arts*

*Oct 2015 - Sep 2018*

**Full stack Software Developer**  
**Codecool**

*June 2021 - 2022*

One year of hands-on experience with programming, languages learned are : Python, Javascript, C#, frameworks: React, .NET, Flask.

**Certifications:**

**IBM AI Product Manager**

**Coursera · 2026**

**CPM — AIPMM**

**In progress**

## TECHNICAL SKILLS

- React.js
- Next.js
- TypeScript, JavaScript (ES6+)
- Redux / Zustand
- HTML5, CSS3, SASS
- PixiJS (2D rendering, game UI), WebSockets
- Adobe Animate/Adobe Illustrator/Photoshop/Figma
- Responsive Design
- UI/UX Principles
- Node.js
- Microfrontend architecture
- Reusable and scalable design systems
- GraphQL
- Jira (Agile workflow, task management)
- Product Strategy & Roadmapping
- Market Research & Competitive Analysis
- Pricing Strategy & Cost Analysis
- Agile / Scrum / Sprint Planning
- User Story Writing & Backlog Management
- Stakeholder Communication
- Risk Analysis & Mitigation
- Cross-functional Team Collaboration
- Agile / Scrum methodology

## RELEVANT EXPERIENCE

**Frontend Developer**

**TECVIVO SRL/ LAS VEGAS**

Apr 2025 - Present

**Tech Stack: Next.js, React, TypeScript, PixiJS, Adobe Animate, WebSockets, Node.js**

- Developed interactive casino games (slot machines) from scratch using **Next.js** and **TypeScript**, focusing on performance and scalability.
- Implemented real-time communication using **WebSockets**, ensuring continuous and synchronized gameplay.
- Built visually rich and high-performance game interfaces using **PixiJS** and animations created in **Adobe Animate**.
- Contributed to the development of multiple gaming platforms, delivering reusable and scalable frontend solutions.
- Contributed to the implementation of a core game architecture that supports 14+ games with shared functionality, enabling easy customization and rapid development of new games.
- Focused on modular architecture and component reusability, significantly reducing development time across projects.
- Collaborated closely with backend teams to integrate game logic, **APIs**, and real-time systems.
- Played a key role in shaping **UI/UX** for engaging and responsive gaming experiences.

## Projects

### Friend-in-a-Pocket

<https://friend-in-a-pocket.vercel.app/>

(Developer, 2026)

Psychological companion chatbot built with Claude via OpenRouter. Features onboarding quiz, personality generation, and real-time WebSocket conversation.

### Reverie

<https://canva.link/reveriebowsplan>

Hand-Painted Hair Bows (PM Case Study, 2026) Full product plan for an artisan accessories brand — market research, dual-market pricing strategy (RO + EU/Etsy), 5-stage operations workflow, 3-phase growth roadmap, and risk matrix. Demonstrates end-to-end product thinking from zero to market.

### Second Chance

#### Foundation

<https://github.com/annarad111/hackathon2>

It is a web application made for an NGO, participated in a hackaton and won 2nd prize. Frontend Technologies used: React, Typescript, Redux. Backend Technologies: C#, ASP .NET, PSQL

### Deseuri Electronice

<https://deee-uri.ro/>

Client project for a Romanian e-waste recycling company. Built with Next.js and Firebase — features an interactive price calculator where users input material type and quantity to receive instant recycling estimates, plus a full admin panel for managing the product database and pricing in real-time.

## Frontend Developer

### MindGeek / Aylo

Mar 2023 - Apr 2025

#### Tech Stack: REACTJS, REDUX, JEST, NEXTJS

- Delivered Projects Ahead of Schedule: Managed and developed **REACTJS** projects independently.
- Leadership & Collaboration: Led teams and worked closely with cross-functional teams to deliver user-facing features. Provided guidance and support to colleagues, ensuring smooth project execution.
- Feature Development & Optimization: Developed new features, optimized applications for maximum speed and scalability, and ensured smooth user experiences.
- Estimation & Planning: Provided accurate project estimates and actively contributed to feature brainstorming sessions with the Front-End Lead and other developers.
- State Management (Redux): Extensive experience in state management using **Redux**, ensuring smooth data handling and predictable application states.
- Microfrontend Architecture: Worked with **Microfrontend Architecture** to enhance modularity, scalability, and maintainability of large applications.
- UX & Visual Design: Applied **UX** principles and visual design skills to create user-friendly, visually appealing interfaces, used **JEST** for testing.
- Collaborated with global teams across various time zones, successfully working with colleagues from different cultures and backgrounds.

## Frontend Developer

### CANARY TECHNOLOGY INNOVATIONS

Jun 2022 - Mar 2023

#### Tech Stack: REACTJS, REDUX, JEST, NEXTJS, NODEJS, GRAPHQL

- Proficient in web application development using **ReactJS** and **Next.js**.
- Experienced in assessing and understanding customer requirements to deliver tailored solutions.
- Skilled in designing and developing user-friendly **UI/UX interfaces**.
- Proficient in working with **MySQL, GraphQL, and Auth0** for secure and scalable applications.
- Hands-on experience with **Node.js**, working on full-stack projects involving both frontend and backend development.
- Collaborative team player, utilizing centralized project management tools for effective task coordination.
- Experienced in web development using version control and code-base management tools.
- Designed and developed modular, reusable **RESTful APIs** and frontend components.
- Created a custom Jira app for time tracking to improve team productivity.
- Strong project management skills, regularly updating clients on progress in a clear and understandable manner.

## Full stack Developer

### Freelance

April 2022 - Dec 2022

#### Tech Stack: REACTJS, REDUX, JEST, NEXTJS, NODEJS, GRAPHQL, .NET

- Developed and maintained full-stack web applications using .NET, Node.js, React, and Next.js.
- Utilized Google Firebase for application development and data management.
- Planned, wrote, and debugged web applications to meet client requirements.
- Engaged in client discussions to define product goals and implementation strategies.
- Proficient in creating UI components with CSS (SASS).

## Junior Full stack Developer

### ALGO CONSULTING SERVICES SRL

August 2021 - Mar 2022

#### Tech Stack: REACTJS, REDUX, JEST, NEXTJS, NODEJS, GRAPHQL

- Developed and maintained web applications using modern JavaScript frameworks such as **REACT.js** for the front end and **Node.js** for the back end.
- Collaborated with product managers, designers, and other developers to understand project requirements and translate them into technical specifications.
- Wrote clean, efficient, and maintainable code following best practices and coding standards.
- Designed and implement **RESTful APIs** for seamless integration between front-end and back-end systems.
- Optimized application performance and state management using **Redux** to ensure maximum speed and scalability.
- Conducted code reviews, identified areas for improvement, and provided constructive feedback to team members.
- Worked in an agile environment, participating in sprint planning, daily stand-ups, and other agile ceremonies.
- Troubleshooted and debugged issues reported by users and implement effective solutions in a timely manner.
- Collaborated with DevOps team to deploy and maintain applications in production environments.

## Company owner

### Art Paint Design SRL

Nov 2016 - March 2021

- Managed 7 employees involved in receiving, packing, sewing, and shipping of customer orders, also custom physical orders.
- Conducted yearly performance reviews and established goals, increasing efficiency by 10%.
- Successfully built and maintained long-term business relationships with key clients.
- Ability to project manage. Provided regular updates about projects in a language the client can understand.
- Problem-solving. When things don't go as planned, I can find a solution that still aligns with the client's overall objectives and goals.
- Physical and online fashion business
